October 19, 2026

Dear Colleagues,

The National Biomonitoring Network (NBN), a collaboration of the Association of Public Health Laboratories (APHL) and the Centers for Disease Control and Prevention (CDC), is pleased to invite you to attend the 2027 National Biomonitoring Meeting: *I ♥ Biomonitoring — Building Bridges to Tomorrow's Innovations.*

The National Biomonitoring Meeting will be held from Tuesday, April 27th through Thursday, April 29th, 2027, in Albany, NY at the Hilton Albany, 40 Lodge Street, Albany NY. The purpose of this meeting is to foster the exchange of cutting-edge biomonitoring science, findings, and practices. This gathering is specifically tailored to professionals working in state biomonitoring programs and their partners and aims to facilitate dialogue around both the technical and educational aspects of biomonitoring, promoting collaboration and communication within the field.

Topics addressed during the meeting will include exposure to emerging environmental contaminants, emergency response, analytical methods for clinical specimens, biomonitoring study design, occupational health exposures, environmental public health tracking, and findings from state biomonitoring programs. There will be ample time to network and engage in meaningful discussions with colleagues and subject matter experts.

While APHL is not able to fund your travel and lodging, a discounted room rate of $133/night has been negotiated for single or double occupancy at the Hilton Albany. To register for the meeting, please visit the registration page. Comprehensive information will be available at National Biomonitoring Meeting (aphl.org).

We look forward to seeing you in Albany in April for an informative and productive meeting.

Sincerely,

Julianne Nassif, Senior Director, Environmental Health, Association of Public Health Laboratories
Antonia Calafat, Co-Chair, National Biomonitoring Network Steering Committee
Carin Huset, Co-Chair, National Biomonitoring Network Steering Committee
James V. McDonald M.D., M.P.H., Commissioner, New York State Department of Health
Leonard Peruski, PhD Director, Wadsworth Center, New York State Department of Health
